

DEMANDS FOR EXTRA SESSIONS

Delegates Argue Economy on Part of Constitutional Convention

MORE WORKING HOURS

Required Was Statement of Several Delegates—Liquor License Committee Hears Arguments

Columbus, Feb. 1.—Economy and industry in the work was forced upon the delegates to the Constitutional Convention today and the convention session was featured by debates against extravagance and demands for extra sessions and more work. For more than an hour the printing and publishing of debates on the convention, amendments and resolutions were presented, amended and substituted in the end the matter remained in the hands of a committee and the question is yet undetermined.

Remarks on extravagance, and furious debates brought forth the demand that the constitution remain at work tomorrow contrary to the rule of adjournment on Thursday noon until Monday night. Stokes of Montgomery made this demand after he had moved to adjourn until 10 a. m. tomorrow. He detailed the daily cost of the convention as being between \$300 and \$400 a day and this continued whether the convention was in session or not. He insisted that the people of Ohio had sent the delegates to work and protested against the practice of adjourning after three days work.

Solomon Johnson of Williams county declared that the delegates had been seized by contrition for their conduct and were sincere in their desire to return to their task of constitution making they could return to work this afternoon and not wait until Friday. Johnson made a resolution for a recess for one hour and Stokes withdrew his motion to adjourn. The actual work of the convention was suspended this morning to allow the paying of a tribute to the oldest member in the convention, Dennis Dwyer of Montgomery, who will celebrate his 82d birthday anniversary tomorrow.

COMMITTEE IS ADDRESSED BY LINK C. RUSSELL

Columbus, Feb. 1.—Flaws were picked yesterday in the liquor license proposal submitted by Judge Edmund B. King of Erie county, to the Constitutional convention some weeks ago. The faultfinding was done by advocates of the so-called dry element acting in concert with the leaders of the Anti-Saloon League at the second of the meetings arranged by the committee on liquor license of the convention, whose whole plan of operation seems to be that of keeping the people agitated.

The committee, after hearing the arguments, met and decided to have only one more open meeting, and that next Monday at 4 p. m. After that the shaping of the liquor licensing clause will be taken up only in the committee room.

L. D. Lilley of Columbus, insisted that the wet should have no part in the making of this legislation because their past record indicated that they did not want to be restricted, and that

AMERICANS IMPRISONED AS RESULT OF UPRISING OF FORMER MADERISTS

El Paso, Feb. 1.—Fifteen persons including four prisoners, three of them women, are imprisoned in a Juarez prison, and have been without food since yesterday afternoon as a result of the revolting of 300 former followers of General Madero.

Looting throughout the city continues today, with much firing of guns and stores and saloons and private residences are being raided by drunken peons aided by the troops. The casualties among the Americans is placed at two dead and three wounded. Troops C and D, of the Fourth U. S. cavalry guarded the international boundary between the states and Mexico throughout the night.

Capt. Salvador Carranza, commander of the rebels said today that the revolutionists would demand that General Orozco be made governor to replace Gen. Abraham Gonzalez at Chihuahua. Five hundred loyal Maderists were reported enroute to the city to subdue the uprising and

DISDAINED TO WED; GABY'S NOW A WIFE

GABY DESLYS

It wasn't many weeks ago that Gaby Deslys was telling interviewers in New York that she would never marry.

"Marriage," said the girl who was given credit for upsetting the king of Portugal, "is for ugly old maids."

Now she has become the wife of Harry Plicer, a dancer who appeared on the same bill with her in New York.

They would violate all laws made for their regulation.

The dry side closed with an argument by former Mayor James A. Rice of Canton, who blamed the brewing industry for the failure of local option laws, and who, like Mr. Lilley, attacked the traffic generally. Licensing was merely minimizing the evils. The traffic itself, he said, would be stricken down.

C. B. McCoy, well known as an editor at Coshocton and a member of the Business Men's organization, for the won the recent election, for the license system. In support of his position he showed that in Coshocton there had been adopted splendid regulations through town ordinances, and the effects were good.

The county local option law had brought only turmoil and trouble. He denied that only persons interested in the traffic were in the frame for license, and in a running debate told of the restrictions which he favored, although insisting that the Legislature should be given exclusive power in this direction.

Former Mayor W. S. Bell of Zanesville, supported McCoy and asked that the question of license be submitted side by side with the present system as a separate amendment, so that the real issue might be presented to the people.

Lincoln C. Russell of Newark, told of the conditions in that city, and said that one of the reasons that the Rose law was voted out was the promise that the Constitutional convention would give the people relief against intolerable laws by providing a license system.

Mr. Russell showed the improved conditions and better enforcement of law and order in Newark since the last county option election had voted the city in the wet column and voted out the speak easies. He said present conditions in Newark were an object lesson in favor of the submission of the license question to the people in order that it might be settled permanently and settled right.

Dr. D. C. Gentzsch of New Philadelphia, and W. R. Hare of Upper Sandusky, delivered short speeches, asking for license as the best method of regulating the traffic in small towns.

The debate was continued by the asking of many questions, mostly from the dry side and aimed at the speakers for license.

It was noticeable, however, that none of the dry agitators ventured to propound questions to Mr. Russell of Newark.

LORIMER INVESTIGATION

Burns Sheds Little Light on Bribery Case But There Was Plenty of Fireworks.

Washington, D. C., Feb. 1.—William J. Burns, the detective of Mc Namara fame, was the star witness yesterday before the Senate committee which is investigating the right of Senator William Lorimer to his seat in the Senate.

It was evident from the fact that Burns' testimony did not relate even in the most remote degree to the charges of bribery and corruption before the Illinois Legislature and that he had been introduced into the case largely for spectacular purposes, and it was the object of the American-Sherlock Holmes lived up to expectations.

He added fireworks, much interest and a great deal of bombast to the proceedings, but no material facts concerning the main subject of the inquiry. He lost no opportunity to advertise himself as the man who "caught crooks," and didn't "double cross employers," and he spoke of himself as an "example of the honest detective."

So pugnacious was the detective in answering questions in cross-examination by Judge Haney, attorney for Senator Lorimer, that the two men were almost constantly in a verbal clash, hurling at each other remarks at each other and indulging in personalities.

Chairman Dillingham was repeatedly obliged to call the witness down for his methods and manner of replying and once or twice it appeared as if the services of a sergeant-at-arms might be required.

Burns was called ostensibly for the purpose of giving testimony regarding the alleged fact that Charles McGowan, a Canadian young man, who was a witness in behalf of Edward Hines, and his brother-in-law, C. F. Wiehe, had received \$1,500 for coming to Washington and making a statement.

McGowan was passenger on a train through Minnesota, and occupied a compartment with Wiehe, who is alleged to have said that he contributed \$10,000 toward the so-called Lorimer election fund. McGowan testified that Wiehe had made no such statement.

It developed in Burns' testimony that although he had gone to Canada at the request of the Chicago Tribune, for the purpose, as he said, of inducing McGowan to return to Washington and admit that he had committed perjury, in reality, he had not seen McGowan at all. The case against him had been worked up by one of Burns' operatives.

Burns admitted that he had based his judgment that McGowan was sworn falsely upon a letter which was read before the committee. The letter is said to have been written by McGowan to A. C. Bailey, a Burns operative, and stated that McGowan "had made the Hines crowd come across, but that he had a h—ll of a time doing it."

Wm. A. Kannally, a member of the Illinois legislature, which elected Lorimer, continued as a witness when the hearing began. Attorneys for the committee continued their efforts to have him tell where he got \$3,500 in the summer of 1909.

It had developed that Kannally had loaned \$3,500 about that time.

Burns took the stand when the attorneys had finished with Kannally. Burns testified the committee's attorney had employed him on July 11, 1911, to work on the case, and

RULES SUNDAY PICTURE SHOWS MUST SUSPEND

Columbus, Feb. 1.—Heavy bills for the use of autos by marshals, sheriffs or other officers in tracking criminals will not be paid by the state according to a ruling of the attorney general to State Auditor Pullington today. The auditor was authorized to cut all such items out of the cost bills made to the state.

In a ruling made to the city solicitor of Ashland, the attorney general held that moving picture shows are places for the transaction of business and under the provisions of the general code must suspend operation on Sunday.

Jackson, Miss., Feb. 1.—William Smith and his wife were burned to death when their home was wrecked by fire today. Both were under 30 years of age.

BANK CLOSED AT BYESVILLE

Byesville, O., Feb. 1.—O. L. Howard, cashier of the Byesville State Bank, is missing. The bank is closed and a state bank inspector is here to examine into the affairs of the institution. State Bank Examiner Baxter closed the bank's doors following a report of the cashier's disappearance made by the president.

HOBOS HOLDING A CONVENTION

Cincinnati, Feb. 1.—The hoboes of the United States opened a four-days' convention here today. The order for the arrest of the delegates should they assemble was withdrawn by Mayor Hunt. In withdrawing the order, the mayor said he would allow the meetings, provided they were held in an orderly manner. The "Unskilled, Migratory and Casual Workers' Association" is the official name of the hoboes' organization. The plan of the convention is to awaken the public to the needs of the people out of employment. James H. Howe of St. Louis, "millionaire hobo," was named as chairman.

More than half of the "mahogany" used in this family is not mahogany at all, but an imitation belonging to the monkey pod family.

THREE DEAD FROM BURNS

Pittsburg, Feb. 1.—Three persons died here today as the result of burns. Mrs. Alice Van Kirk was fatally burned when her home was blown to pieces. She lingered in agony through the night and died this morning. Agnes Delarish and her sister Ellen attempted to light a gas stove during the night and were so badly burned that they died a short time afterward.

EDWIN HAWLEY DIED TODAY

New York, Feb. 1.—Edwin Hawley, president of the Minneapolis & St. Louis railroad and one of the leading railroad magnates in this country, died at his home here today after an illness of several weeks. Mr. Hawley suffered from nervous indigestion and for the last few weeks has been confined to his home. Reports that his condition was serious were denied. Death came at 4 o'clock this morning.

Among the companies in which Mr. Hawley was a director were the Evansville & Terre Haute, railroad, the Minneapolis & St. Louis, the Iowa Central and the Hocking Valley. No arrangements as yet have been made for the funeral.

FUR MUFF ON PILOT GAVE CLUE OF GIRL'S DEATH

Anderson, Feb. 1.—After a fur muff and a comb were found on the pilot of a locomotive of a Big Four passenger train when it pulled into the city today, searching parties were sent out, and along the tracks they found the body of Miss Maud Argadine at Ingalls. Her father had been searching for her since Wednesday, when she left her home to go to the postoffice.

FORMER NEWARK BOY CLOSING A BIG CONTRACT

George W. Havens, residing a mile and a half south of Newark, today received the following telegram from his son: "Have today closed a contract for what will be the longest electrical transmission line in the world, operating the highest voltage ever attempted, namely 175,000 volts, transmitting 126,000 horse power electric energy a distance of 275 miles. The total length of the aluminum cable is 2500 miles and contains 4,000,000 pounds of aluminum and also 2,000,000 pounds of steel. This is the largest sale of aluminum ever made in the history of the art. The total amount of the contract for cable alone is \$1,151,000."

Mr. Havens is the manager of the offices at Los Angeles, Calif., for a large San Francisco electrical company, and was at one time mailing clerk in the local postoffice.

Both Mr. and Mrs. Havens will leave Saturday morning to spend the winter in California with their son.

Militia Protects More Operators Who Report for Work

WEDNESDAY VERY QUIET

Mill Agents Claim 40 Cent of Employees in One Mill Return to the Machines.

Lawrence, Mass., Feb. 1.—Encouraged by the presence of a large force of militiamen more operatives reported for work in the textile mills yesterday than on any day since the strike of 20,000 employees began nearly three weeks ago. The mill agents gave out a statement last night saying that in one of the larger mills fully 40 per cent of the regular force reported for work.

A still more marked concession is expected throughout the remainder of the week, the statement adds.

The strikers, however, deny any desertions from their ranks. At a general strike meeting representatives of one nationally after another reported their people as standing fast. Most of those who are working are said to be French-Canadian and other English speaking operatives.

Yesterday was one of the quietest since the inception of the strike. The arraignment in Court of the Strike leader Joseph J. Ettor and his lieutenant Arturo Giovannitti, who are charged with being accessories to the murder of Ann A. Loppozzo, provoked no trouble, although it had been feared a demonstration might result. After pleading not guilty and being held without bail, the two were taken to the Essex County House of Correction to await a hearing on February 9. Extra militia guards were on hand in case of trouble but they were not needed.

Colonel Sweetser, the military commander reinforced the permission he had granted for a parade in connection with the funeral of the Loppozzo woman for fear that there might be an outbreak among the body of 10,000 strikers who had planned to participate.

Word of the action did not reach the strikers until several hundred had gathered about the undertaking establishment, where the line of march was to have been formed, and it was necessary to send a squad of soldiers to disperse them.

When the militia appeared the crowd quietly melted away. Late in the afternoon the woman's body was buried quietly, the funeral procession consisting of only a hearse and one carriage.

An autopsy was performed upon the body of John Rami, the Syrian, who was stabbed during a small sized riot yesterday morning, in an effort to determine whether he had been stabbed by the bayonet of a militiaman or had died of a knife thrust from some one in the crowd.

If the autopsy settled the question the authorities did not make the fact public. Rami was buried today, but Colonel Sweetser decreed that there shall be no parade.

ASSYRIAN STABS WOMAN IN BACK

Cincinnati, Feb. 1.—Mrs. Mele Elias was stabbed in the back while asleep today, and her mother, Mrs. Barbara Amkul, was stabbed and seriously hurt when she went to her daughter's assistance. Habib Zehanni, an Assyrian toddler, who is said to be infatuated with Mrs. Elias, was charged with the stabbing. Mrs. Amkul stated that she entered her daughter's bedroom and saw Zehanni draw the knife from her daughter's back, and attacked him. In the struggle she was wounded.

TWO KILLED IN AUTO WRECK

Summit, N. J., Feb. 1.—Henry Wolf was killed and Valentine Hamman probably fatally hurt in an auto accident here today. They were returning in the machine from dinner and while going down a hill the machine became unmanageable and hit an electric light pole throwing the three occupants out.

NEVER TAKE DRUGS INTO THE STOMACH TO CURE A COLD

Here is a Simple, Harmless Remedy, Easy to Apply, That Cures a Cold in a Few Hours.

A piping hot foot bath, a cup of hot lemonade, and a free application of Nostriola to the nostrils, under arms, pits of throat and chest, or wherever there is misery, will knock the worst cold in a few hours.

Nostriola is a simple common sense treatment, easily applied, and no waiting for results. That's why it appeals to everyone.

The nostrils and the air passages are the breeding places for the catarrhal and Hay Fever germ. When the membranes become sore and inflamed, colds, croup, and each new cold increases the inflammation until you have Catarrh, Hay Fever and kindred troubles.

This pleasant healing balm quickly reaches and heals the more inflamed membranes, opens the head, and being an antiseptic, it also cleanses and purifies the parts.

In five minutes after an application of the Nostriola treatment, the head is clear as a bell, running of the nose is stopped, and you distinctly feel the cold breaking up and leaving you.

Nostriola is put up in handy collapsible tubes, and you get about sixty days' treatment for 25 cents. Buy a tube at your drug store today, and you'll wish you had tried Nostriola sooner.

The Quickest, Simplest Cough Cure

Easily and Cheaply Made at Home. Saves You \$2.

This recipe makes a pint of cough syrup—enough to last a family a long time. You couldn't buy as much or as good cough syrup for \$2.50.

Simple as pie, it gives almost instant relief and usually stops the most obstinate cough in 24 hours. This is partly due to the fact that it is slightly laxative, stimulates the appetite and has an excellent tonic effect. It is pleasant to take—children like it. An excellent remedy, too, for whooping cough, croup, sore lungs, asthma, throat troubles, etc.

Mix one pint of granulated sugar with 1/2 pint of warm water, and stir for 2 minutes. Put 2 1/2 ounces of Pinex (fifty cents' worth) in a pint bottle, and add the Sugar Syrup. It keeps perfectly. Take a teaspoonful every one, two or three hours.

Pinex is one of the oldest and best known remedial agents for the throat membranes. Pinex is the most valuable concentrated compound of Norway white pine extract, and is rich in guaiacol and all the other natural healing elements. Other preparations will not work in this formula.

The prompt results from this recipe have endeared it to thousands of housewives in the United States and Canada, which explains why the plan has been imitated often, but never successfully.

A guarantee of absolute satisfaction, or money promptly refunded, goes with this recipe. Your druggist has Pinex, or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

AUDITORIUM PICTURES.

The program of motion pictures at the Auditorium this evening is one of extraordinary merit and one that is sure to please all. This program will consist of five of the latest releases of the best licensed producers. "The Story of Rosie's Rose" (Lubitt); "The Wrong Patient," produced by the Vitagraph players; "Queer Folk," a comedy that deals with life in the side show of a big circus; "The Medicine Woman" (Pathe), a western drama; "The East-ern Sacrifice" (Lubin), a western drama; "The Dark Romance of a Tobacco Can" (Desany), a comedy that combines many types of characters.

"THE TOWN MARSHAL."

Can one evil mind poison a whole household? Is the human being capable of producing disastrous effects on a household by "adverse" suggestive thoughts? Do we realize adequately how our mental attitude influences our lives and the lives of those about us? All these questions are asked in "The Town Marshal," a new play from the pen of Lem R. Parker, and produced by O. E. Wee. And the answer? Well, the play is the answer. For one-half its course is built on a condition of affairs in a typical American family today. The inner life of each member is shown and there is the subtle feeling produced that all is not right, that

one mind it not in full accord with the peace and happiness of that household. The crash comes. Then "The Town Marshal" shows his hand and solves the mystery and brings each member of the little family circle, back to peace and happiness. Saturday matinee and night.

"THE CONFESSION."

Of late there has been a tendency for better things in the way of stage presentations. All musical comedies are virtually alike—problem plays are too frequent, indecency has received a fitting rebuke. "Quel Vadis" and "The Sign of the Cross" ran for years, with nothing but success to testify to their true worth. It has been shameful to see parents suddenly rise from their seats, to take a growing daughter away from the midst of a performance, from the fact that few suggestive scenes and situations in some of the offerings of the last two seasons. The management of "The Confession" announces that no child, no matter of how tender years, can see or hear a single offensive thing in the offering. At the Auditorium Tuesday next.

"THE GAMBLERS."

In "The Gamblers," which comes to the Auditorium soon, Charles Klein achieved his greatest success. The play grips the audience very early in the final act and holds it tensely until the final fall of the curtain. Mr. Klein has handled an everyday financial incident with strength and originality, and there is scarcely a superfluous word spoken in the entire drama. But, in addition to its excellence of construction and the vividness of the plot, it is presented by an unusually strong company.

"THE BEAUTY SPOT."

The musical play by DeKoven and Herbert entitled "The Beauty Spot," which comes to the Auditorium soon, is said to be a production above the average. Its music being of a higher

WHEN you get your paper tomorrow; tear out the coupon from our full page advertisement. Hand it to your grocer. He will take a can of Every Day Evaporated Milk, tear off that part of the label bearing our trademark (the milk bottle with the seven days of the week), and give you the can of milk for your coupon. For the coupon and that part of the label the grocer keeps we pay him the regular retail price for our milk. We take all the risk of pleasing you and creating a steady demand for Every Day Evaporated Milk. We know if you use it once you will use it again and again. That is why we can afford to pay the enormous expense of this free distribution to get you to try our milk.

THE Free Coupon will be accepted by your grocer for milk tomorrow or Saturday. The coupons will not be good after Saturday night. We limit the time in which the coupons can be exchanged so that we can promptly clean up the transaction with the grocers and give them the cash for the coupons. Next Monday morning our salesmen will begin calling upon the grocers and paying the cash for all the coupons they have taken in exchange for Every Day Milk. We expect to call on every grocer in this city and nearby towns before the end of next week and redeem in cash all coupons. order bordering closely on the comic opera style. The cast is headed by that sparkling comedian and actor, Frank Deshon, formerly star of "Miss Bob White" and "The Office Boy," whose strength lies not altogether in the material furnished him by the authors, but what he interjects into the piece from his own personality. His role of the giddy old Russian general is characteristic. His make-up being highly ludicrous and mirth-provoking.

Mr. Deshon is ably supported by a company of well-known people. The two scenes are said to be handsome, unique in idea and beautiful to the eye.

THE ORPHEUM.

Another all-around good bill opens at the cozy Arcade theatre this afternoon for the last three days of this week. The big feature on the program being "The Melody Four" in a classy musical act, both vocal and instrumental. Every member of the quartet has an excellent voice and shows remarkable training. They offer the late song hits and several instrumental numbers on the piano, violin, cello, banjo, guitars and mandolins. Lavine and Inman are offering a comedy novelty in a sketch entitled "Sally's Visit." The lines all the way through are said to be ridiculously funny, while Lavine and Inman in their usual make-up can't be beat. Herbert Cyril Johnson's first challenge after his victory over Jeffries, is also here. He is offering a very pleasing monologue as an English Johnny boy. He is not depending on his athletic prestige in vaudeville, but is an entertainer of no small ability. Tom Sidello and company in a novel

black art specialty have a new line of comedy to offer you. Many mysterious things are done in full view of the audience, which are truly side-splitting and seemingly without the aid of a human hand. An Efficient Department.

When State Factory Inspector Kearns took office his work was made more difficult because of the indefinite and inadequate laws to enforce compliance with the orders of the department, and he found it necessary to secure numerous changes in the laws governing this work, that he might be able to get more satisfactory results.

Among the new laws and changes in the old laws suggested from time to time by the department in the past two and one-half years, and which have been enacted into laws, greatly strengthening and facilitating the work, and enabling the department to render more efficient service, were the following:

Amendments to the Child Labor Law, with a view to making the compulsory educational laws conform to the Minor Labor Laws, and were amended so as to prevent the issuing of certificates to minors to be employed at the kind of establishments prohibited by the minor labor law; also to change the form of the certificate, making it compulsory to return certificate to the persons issuing the same and not to the child; prohibiting the employment of boys under eighteen in the messenger service after nine o'clock at night.

Changes in the laws relating to the employment of females in workshops, making it possible to secure better sanitary conditions therein, the law providing for a shorter work-day for women, limiting the hours of labor to nine hours per day or fifty-four hours per week. Laws relating to the proper inspection of boilers; an amendment to the law compelling the placing of counter-floors in buildings in course of erection, placing its enforcement under the jurisdiction of this department; increased penalties for failure to guard dangerous machinery. Increased penalty for using any dangerous machine after it has been condemned by this department, until such changes or alterations are made as ordered by the department; more substantial guarding of elevators and elevator shafts; a law pertaining to the reporting of accidents, to compel more prompt and complete reports of all accidents occurring in the workshops and factories through the state.

Previously, the reporting of accidents had been a mere matter of form, and no very satisfactory information could be obtained therefrom by reason of the lack of necessary laws to compel the filing of subsequent or final reports on accidents, and to submit information that would be valuable in the compiling of these statistics, and the department presented a New Accident Law in which was included the necessary information and provided for first report within three days of all accidents causing a loss of two or more days time, and a subsequent report containing complete information.

OUR HOME CITY

Everyman is interested in the welfare, the appearance, the comfort of his own home—why not of his home city as well?

All want to progress personally—why not as a whole?

Nobody wants his own property to "run down at the heel" and lose value—why should anybody want the city's property or the city's commercial interests to go downward? Not to progress means going backward.

Why are so many people always ready to admit that they would like to see civic improvement go forward but refuse to do their part? Why are some folk always ready to attribute a selfish purpose to any public spirited movement? Why are men prone to "let George do it?"

These are thoughts that come now that the annual membership campaign of the Board of Trade is on. Can any one picture the condition of this city if every man in town who should do so would figuratively take off his coat and go to work to build up the town?

Suppose 15000 men of Newark would manifest an interest in civic development, would become members of the Board of Trade, and take part in boosting the city's interests. What would happen? A force of such size, determined upon the single purpose of doing good for the town, couldn't possibly fail.

Last year the Board of Trade had 650 members. A great deal of good was done. Some things that should have been accomplished were not done because of lack of funds or want of cooperation, but a great big forward step was taken and it now remains to continue the organization and make further progress this year.

Some things the Board undertook and accomplished last year did not meet with the approval of everybody but opinions differ and what one approves another may not endorse. The way to view the matter is to grant the other fellow the right of opinion and though he may differ from you, do not condemn until you know just what you are talking about.

Who disapproves of the good roads campaign, the new sidewalk agitation, the "clean-up" day? Who thought One L. Abbott says that Mr. Roosevelt will obey if the people call for him; has there ever been much doubt about that?

Lawrence operatives are complaining of wages of \$5.50 a week. What are the duties on woollens doing for them?

The opponents of license submission by the Constitutional Convention resort to misrepresentation of the issue. The only question for the Convention to settle is whether the people shall have the right to vote either yes or no on the license proposition. Why deprive the people the right to settle it?

Why does Senator Penrose of Pennsylvania talk about the panic of 1893 and say nothing of the much more panicky panic under Roosevelt of 1907? And why is he so silent of the still greater panic of 1873 when the Republican party had complete control in both the political and business interests of the country?

The vote in the House of Representatives in favor of the bill reducing the tariff on steel stood 210 yeas, 109 nays. This no doubt pretty accurately reflects the condition of popular sentiment. There is nothing the people of the United States are outgrowing so fast as their belief in the efficacy of the policy of high protection as a means of advancing the general prosperity of the nation.

The more those pictures of King George hunting big game in India from a bomb proof howdah on the upper deck of an elephant are considered, the more safe and pleasant the sport appears.

Mr. Taft adroitly makes his record the Republican party record.

Knees Became Stiff

Five Years of Severe Rheumatism

The cure of Henry J. Goldstein, 14 Barton Street, Boston, Mass., is another victory for Hood's Sarsaparilla. This great medicine has succeeded in many cases where others have utterly failed. Mr. Goldstein says: "I suffered from rheumatism five years, it kept me from business and caused excruciating pain. My knees would become as stiff as steel. I tried many medicines without relief, then took Hood's Sarsaparilla, soon felt much better, and now consider myself entirely cured. I recommend Hood's." Get it today in usual liquid form or chocolate tablets called Sarsatabs.

the publication of the Newark Book, the Arbor Day tree planting, the coat house lighting, the Library subscription a waste of time and money? Who objected to the playground plan, the canal abandonment, the award of prizes for children's flower beds? Some objected to the whole program but they may be dismissed without consideration for they are few and far between. Some however, did not approve of certain work that was done and they are honest about it. Their opinion should be respected but they are asked to view the whole year's work and ask themselves if after all it wasn't worth while.

It didn't cost anybody a great deal of money but it cost a good deal of effort and work and time upon the part of some of the members. Shouldn't this work, this effort to redeem Newark's fair name meet with encouragement? Isn't it worth \$5.00 a year of anyman's money?

Do the people of Newark want to see the effort to improve local conditions and institutions stop or are the men who are active in this work to be encouraged?

To accomplish anything requires money. The Board of Trade's resources lie in its membership fund and in personal contributions.

If you vote to go ahead with this work of boosting Newark, sign a membership card now. Clip it out of this newspaper. If you don't like the way some things are done attend the meetings and express your opinion. If you want to see certain other things done go to the meetings and say so. The directors are there to do the bidding of the majority of members and they will do it.

Be loyal to Newark. If you are in the habit of "knocking," swear off. Harmony of action, willingness to work and to agreement to do your part will bring the results all would like to see.

Local patriotism, harmony and enthusiasm of every citizen to do his full duty will make for a Greater Newark. It is organized effort that counts in civic affairs as well as in politics or religion. Will you do your part? Join the Board of Trade today. Clip out and sign the coupon now.

THE WATER WAGON.

The water wagon goes its way with creakings long and loud. When it set forth on New Year Day it held a merry crowd that filled the air with laugh and song, with pledge and noble vow; where is that gay and gladsome throng? Where are those heroes now? One passenger soon left his seat hard by the bugidice mill; he said he couldn't stand the heat, although the day was chill. And one, who stately brave and bold, a youth of princely form, said that he couldn't stand the

Central Board Active.

More evidence has been given of the wisdom of the plan of centralizing the management of the state institutions. The new board has not only solved the idle prison problem which was an enigma for so long, but it is about to utilize the labor of prisoners to better advantage than ever before. This will result in a big saving to the state.

The board of administration sounded the death knell of the old prison labor contract system recently when it gave notice to two manufacturers within the walls of the prison to vacate April 15th. These contracts expired many months ago, but the companies were permitted to continue business by the old pen board, because there were no other tasks for the prisoners engaged in the factories to perform.

Besides the farm at Morgan's station, and the old stone quarry the central board is planning many new tasks for the prisoners. One is to use squads for work at state institutions, where there are a number of jobs that can be done with prison labor.

It was announced by the board that the old prison asylum will be torn down as soon as insane convicts can be removed to the Columbus State Hospital. This will be done soon. The site is to be used for one of several small buildings which the board will erect. One will be a coffee roaster. The board also plans a small flour and feed mill.

The old idle house is to be transformed into a clothing factory, provided with high ceilings and big windows, so as to be sanitary. Prisoners are to make their clothing. The factory is expected to be ready for operation by May 1st. In addition the board plans to use one of the large buildings as a store house for supplies, which can be purchased most economically in car load lots.

The board will tear down stamp shop No. 1 and bolt shops 2, 3 and 4. They are to be vacated at once. The buildings have been condemned as unsafe.

DANGER IN DELAY. Kidney Diseases Are Too Dangerous For Newark People to Neglect.

The great danger of kidney troubles is that they get a firm hold before the sufferer recognizes them. Health is gradually undermined. Backache, headache, nervousness, lameness, soreness, humbug, urinary troubles, dropsy, and Bright's disease follow as the kidneys get worse. Don't neglect your kidneys. Help the kidneys with the reliable and safe remedy, Doan's Kidney Pills, which has cured people right here in Newark.

Mrs. Anson Davis 57 N. Thirteenth street, Newark, Ohio, says: "We have used Doan's Kidney Pills in our family with excellent results and I recommend them highly. One of the family suffered from pains in the back and kidney weakness. Doan's Kidney Pills were used, being procured from A. F. Crayton & Co.'s Drug Store and they brought entire relief."

OBITUARY

THOMAS MEARING.

George Sessor received a telegram from Bowling Green, O., notifying him that his uncle, Thomas Mearing, had died at his home four miles from that place, on Wednesday morning. He was an old soldier and was a member of the Grand Army of the Republic. The funeral services will be held Friday. The deceased lived in Newark many years ago.

MRS. H. D. UPHAM.

Word was received here Thursday by Judge Robbins Hunter that his sister, Mrs. Herman O. Upham nee Daisy Hunter, had died Thursday morning at Asheville, N. C., where she had gone early in the winter for her health. For some time past Mrs. Upham had not been in the best of health, but her death was hardly expected at this time.

Mrs. Upham was born in this city in 1874 and lived here until the winter of 1901, when she was married to Mr. Herman Upham. Since that time she has resided in Detroit, Mich.

Mrs. Upham was the daughter of the late Judge S. M. Hunter and Mrs. Hunter, and she is survived by her husband, Herman O. Upham and son, John H. Upham, also by her mother, Mrs. S. M. Hunter, her sisters, Mrs. Charles W. Kellenberger and Mrs. Louise Hunter and her brother, Judge Robbins Hunter.

Mrs. Upham's death was preceded by the birth of a son January 23, 1912, who died on the same day. The date of the funeral will be announced later.

MRS. FOUNDS' FUNERAL.

The funeral services over the remains of the late Mrs. Patience Founds, widow of the late Leroy Founds, who died at the home of her daughter, Mrs. Coyle on Jefferson street, Tuesday afternoon, will be held at the home of her son, Charles J. Founds, 244 Lawrence street, Friday afternoon at one o'clock, the Rev. Mr. Dillon, officiating. The interment will be made in Cedar Hill cemetery. The deceased was aged 67 years, and is survived by four sons, Charles J., Curtis A., and Mason A., of Newark, and M. Andrew of Fostoria, O. and one daughter, Mrs. Coyle of this city. There are also one surviving brother, Thomas Davidson of this city, and one sister, Mrs. Eliza Sands, who lives in Texas.

FUNERAL OF T. V. RUTLEDGE.

The funeral services over the remains of the late T. V. Rutledge were held at the home in West Locust street Wednesday afternoon at 2 o'clock, and were attended by a large number of the relatives and friends of the deceased, many members of the Knights of Pythias organizations of the city, and also of the Eagles and Elks being in attendance. The services were conducted by Rev. L. P. Franklin of Trinity Episcopal church, and interment was made in Cedar Hill cemetery.

CARD OF THANKS.

We desire to thank our neighbors and friends, also the Brotherhood of Railroad Trainmen and Rev. Bohon Schmitt for their kindness and sympathy at the death of our husband and father, Otis Stone. Also for the beautiful floral offerings.

HEART AND HOME TALKS

BY BARBARA BOYD

A Hidden Enemy to Health.

WE are beginning to understand the intimate connection between the mind and the body, and that many of the physical ills from which we suffer have a mental rather than a material cause. And one of the mental states that is a prime promoter of physical woes is discontent. The man or woman who is just plain discontented is laying a foundation for many physical ills, if indeed he is not already suffering from them and wondering what can be their cause.

There are two kinds of discontent, divine discontent that urges on to better things, and just plain, everyday discontent that makes us sour and bitter and irritable. Divine discontent is a good thing. Its action is healthful. This kind of discontent is not under discussion. But the ordinary discontent of which all of us have attacks now and then is harmful. And we should recognize it as injurious, and rid ourselves of it as quickly as possible.

Just as soon as the germ of discontent begins to work in our mind, everything begins to look gloomy. Life takes on a pessimistic tinge. Nothing is right or goes right. The body catches the cue. We grow irritable. We scold the children or reprimand our business associates. This means that wires are crossed in the nerve region. Next, the stomach sulks. We don't want anything to eat, and what we do eat disagrees with us. Then, our head begins to ache. The world looks bluer and bluer. Our spirits sag. It is like an endless chain. The mind affects the body, and the body in turn lowers the tone of the mind. And so it goes; and, unless we put a stop to it, the last state of the discontented man or woman calls for a medical board and a sanatorium.

Many a person who is suffering and dosing for indigestion or nervous trouble or insomnia would find, if he would get busy and chase the disorder right down to its beginning, that discontent was the spark that had lighted the whole conflagration. He is out of sorts with his work, his home, his surroundings, his associates, his social position. He is not content in some direction, and it frets him, irritates him, sets up a fever in his mind, and then the body falls in line with its physical correspondence.

The trouble with this sort of discontent is that it is content to remain discontent. If it would go briskly to work to remedy, or else to put out of mind, the thing that is bothering it, the ills that ensue would quickly disappear. For discontent is inactive. It rails at the cause, but it sits apathetic under it. For as soon as discontent takes off its coat and begins to work to remove the trouble, it is no longer discontent. It is heaving a path straight to content. Energy and activity will soon batter down the stronghold of this hidden enemy to health. And once freed from it, the spirits will revive, the sky grow blue, and strength return once more to the body.

Barbara Boyd.

COURT NEWS

Common Pleas Court.

The case of Mary E. Gilmore vs. Julia O'Connor was heard in the court on Thursday. Plaintiff says that the defendant has in her possession \$100 belonging to John Moriarty, Jr., that John in writing, assigned the same to plaintiff, and ordered the defendant to pay the money to the plaintiff, Mrs. Gilmore; that Mrs. O'Connor promised plaintiff frequently that she would comply with the order, but has since converted the money to her own use, and refuses to pay plaintiff. A judgment for \$100 and interest is asked in the petition. After the testimony on behalf of plaintiff has been introduced, an application was made to amend the petition, which was granted.

Paul Warshaw vs. A. Q. Miner, et al., dropped from the assignment. Plaintiff brings the suit to recover damages, alleging breach of warranty in the sale of a horse.

Demurrer Filled.

In the case of Andrew Halshitzer and others vs. The Baltimore & Ohio Railroad company the plaintiffs have filed a demurrer to the second defense set up in defendant's answer, for the reason that it does not state facts sufficient to constitute a defense to plaintiff's petition. This is a suit brought by the plaintiffs against the defendants to recover damages for the killing of some stock. Smythe & Smythe, attorneys for the plaintiff.

MINISTER APOLOGIZES FOR LETTER

REV. JACOB E. MECKER, WELL KNOWN HERE WITHDRAWS \$25,000 DAMAGE SUIT IN ST. LOUIS.

Charged Libel in Suit Against Fellow Minister Whose Letter Was Used Against Him.

Because his demand of an apology was forthcoming, the Rev. Mr. Jacob E. Mecker of St. Louis, who made an address in the Auditorium theatre in Newark during the local option campaign under the auspices of the Licking County Business Men's and Taxpayers' Association, has withdrawn his libel suit of \$25,000 against Rev. Merle H. Anderson another St. Louis minister. The St. Louis Times says:

"The suit of \$25,000 alleged libel, filed by Rev. Jacob E. Mecker, pastor of the Compton Hill Congregational church, against Rev. Merle H. Anderson, former pastor of the Kings Highway Presbyterian church, in November of last year, has been taken out of the courts, following the receipt of a letter from Rev. Mr. Anderson by Rev. Mr. Mecker several days ago.

C. Porter Johnson, attorney for Mecker, who withdrew the suit Monday, said Mecker only wanted an apology, and as it was contained in the letter, Mecker was entirely satisfied. Mecker was at his office Monday. In the letter to Mecker, Mr. Anderson says:

"It is hardly necessary for me to say that I regret exceedingly the unpleasant misunderstanding which has

arisen between us. Knowing full well that no good can come from it, and perhaps only injury to the cause which we represent and to each other.

"I take this method of saying to you that the letter which I wrote was a personal letter, hastily written, to a brother minister, and in reply to an inquiry from him. I was greatly shocked and surprised when I discovered that it was a mutilated form, it had been published. This was done without my knowledge and without my consent. Had I known that it would be thus used I should not have written it.

"I had absolutely no malice or ill will toward you, and neither intended nor wished to do you harm; and if any inferences have been drawn from the letter which are injurious to your personal character, I deeply regret it, and any offense contained in that letter has been constrained to be a reflection on your moral character, or on your standing as a Christian gentleman; I regret it also. I know of nothing in your life which would warrant any imputation against your Christian character and I have never intended to make any such imputations.

"Trusting that you will accept this letter in the spirit in which it is offered, I beg to remain, very truly, Merle H. Anderson.

Rev. Mr. Mecker charged in his suit that certain statements were written by Anderson and published, in which it was the intention to "injure and discredit him and to deprive him of the benefits of public confidence and expose him to public hatred, contempt and ridicule."

Some of the statements to which Rev. Mr. Mecker took exception were that he was highly regarded by politicians, and was ignored by the Christian forces of the city; that it was pretty generally understood in St. Louis his church was generously supported by a prominent brewer, and that he was discredited by the church people of St. Louis because of his open stand for the brewery interests.

USE SAGE AND SULPHUR AND HAVE HEALTHY HAIR

What a pity it is to observe so many people with thin and faded hair and then realize that the most of these people might have a fine, healthy head of hair if they would but use the simple "sage tea" of our grandmothers, combined with other ingredients for restoring and preserving the hair. No one, young or old, need have gray hair, weak, thin, or falling hair, dandruff or any trouble, of the sort if they would but use Wyeth's Sage and Sulphur Hair Remedy. On the contrary, it is possible to have healthy, vigorous hair, of perfect color, by a few applications of this remarkable preparation.

Wyeth's Sage and Sulphur Hair Remedy quickly removes dandruff, leaves the scalp clean and healthy, promotes the growth of the hair, and restores the natural color of the hair which has become faded or gray. It is a clean, wholesome dressing, which may be used at any time and with perfect safety. Don't neglect your hair. Start today with Wyeth's Sage and Sulphur Hair Remedy.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists.

USED COAL OIL AND EXPLOSION WAS THE RESULT

People residing in the South End, in the vicinity of Pataskala street, were greatly startled at an early hour Thursday morning by a terrific explosion which caused the windows in houses to rattle and the houses to shake. For a time it was thought that there had been a disastrous gas explosion, and that perhaps there had been loss of life. An investigation, however, brought to light the fact that Benjamin Slate, living at the corner of Pataskala and South Fourth streets, had filled the kitchen stove with wood, over which he had poured a considerable quantity of coal oil, not knowing that there were live coals of fire in the stove. The result was an explosion. Fortunately no one was injured.

WONDERLAND

The Motion Picture Parlor which has been so successful in securing new and high class pictures, has provided for a new piano and has engaged the "Hawkins Trio," who will take up their duties Friday evening and will furnish the music for the Wonderland. The instruments used are violins, saxophones, clarinet and piano. The musicians are members of the Musicians' Union. They are among the best musicians of the city. Ladies and children receive special attention. The manager having many years of experience with childhood, nothing but the best is good for them. The capital city is visited daily. Program selected to his best judgment, with the aid of the manager of the exchange, an expert program selector, Mr. Handley. Visit the Wonderland daily to see the best things the motion picture people offer.

Police Court.
Mayor Swartz's police court docket this morning included a half dozen drunks, several train riders and loiterers, ten cases in all. Three of the drunks were foreigners who participated in a celebration after midnight this morning.

WATCH YOUR HAIR, LADIES

Eternal Vigilance is the Price of Luxuriant and Radiant Hair.

If dandruff germs are devouring the nourishment that belongs to the hair it will soon begin to fall. Furthermore it will lose its life and lustre and will become dull, faded and even look slovenly.

If you have any signs of dandruff, you ought to go right to your druggist today and get a bottle of PARISIAN SAGE. This delightful and refreshing hair tonic is guaranteed by Evans' Drug Store to kill dandruff germs, clean the head of filthy dandruff, stop falling hair, and itching scalp or money back. And it does just what it is guaranteed to do and that's why its sales are so enormous the country over. PARISIAN SAGE is the favorite of refined women. One bottle proves its superiority.

Danderine

Grows hair and we can prove it

Hair. Becomes Soft, Fluffy, Lustrous and Beautiful Immediately After a Danderine Hair Cleanse

Get a 25 Cent Bottle Now and Forever Stop Falling Hair, Itching Scalp and Dandruff

A little Danderine now will immediately double the beauty of your hair—No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair taking one small strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy and have an appearance of abundance, an incomparable lustre, softness and luxuriance, the beauty and shimmer of true hair health.

Try as you will after an application of Danderine, you cannot find a single trace of dandruff or a loose or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use when you will actually see new hair, fine and downy at first—yes—really new hair—sprouting all over the scalp.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its life-producing properties cause the hair to grow abundantly long, strong and beautiful.

Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and prove to yourself tonight—no—then your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all—you surely can have beautiful hair and lots of it, if you will just try a little Danderine. Real surprise awaits you.

CLINTON BROOKE IS MEETING WITH MARKED SUCCESS

Clinton Brooke, jobber in canned goods, is a contradiction of the conclusion of the late Horace Greeley, that a man should not change his business after he is forty unless he is in the horse thief industry.

Mr. Brooke is now located in room 401 Columbia building, Duluth, Minn. In the last six years he has made good in the business and is rearing an interesting family of two sons and a daughter, also a foster daughter, the child of a dead relative. He has a fine business and caters to the wholesale trade of Duluth and the surrounding country and the immense lumber and mining industries for which Minnesota is celebrated.

He was born in this city at No. 151 Elmwood avenue, and his parents were Mr. and Mrs. Thomas G. Brooke. He graduated from the Newark High School in 1877 at the age of 19 years. He first learned the business of a photographer under Walter A. Smith, who is still in business here. Before embarking in the business for himself he quit it and, though of marked artistic ability, took service with the Baltimore and Ohio railway company, which at that time maintained the headquarters of the Western Grand Division of the system.

He learned the business of a car accountant under General Car Accountant E. D. Clarke. Leaving the service in the early eighties, went to Minneapolis where he took the position of chief car accountant of the M. & St. L. R.R.; then an independent corporation, and filled the office with credit to himself and the satisfaction of his employers until 1904 when it became a part of the Illinois Central railway system. Not pleased with the politics of the merger he decided to quit railroad work and removing to Duluth he embarked in the venture as above stated for himself.

He has a warm spot in his memory for his native town and when possible he visits it. He has not been here for a few years but expects to be here during the coming summer and look it over.

Mr. Brooke is well pleased with the land of his adoption. Both his parents now slumber there and the world to him is centered in the bright little family he is now rearing.

GRANVILLE

ROADS IN VICINITY OF OLD COLLEGE TOWN IN EXCELLENT CONDITION.

Enjoyable Dance at Assembly Hall Last Evening—To Build First Class Garage.

Granville, Ohio, Feb. 1.—The roads in and about Granville have never been in better shape than they are just at the present time. Reports coming in from the country are to the effect that the roads have not been so smooth at this season in many years. The thawing and snow of the past few weeks has had the effect of filling up the holes and low places of all kinds, making the roads as smooth as a pavement and delightful to ride on. Enthusiastic motorists declare that the spirits are high, and bells cannot compare for comfort and delight with the sputtering motor as it annihilates distance.

Mrs. George E. Jones, who had the misfortune to fall on the ice a few days ago, sustaining a severe injury to one of her arms is still at the home of Mrs. W. A. Mitchell, on East Broadway. An X-Ray examination was made of the injury last night, but Mrs. Jones thought that she was not equal to the occasion and did not venture out.

A large number of the members of the new club recently organized in Granville, consisting of young people and married couples, held a most enjoyable and successful meeting on Wednesday night. Delightful music for the occasion was rendered by the Johnson orchestra.

Walking on the sidewalks in Granville during the past several days has been a most perilous undertaking, and the majority of people have been "walking in the middle of the road." Wednesday, however, was probably the worst day we have had, and slipping and sliding was the chief order of the day, and many falls of a minor nature were recorded all over the village. The light fall of snow which fell Tuesday night covered the layer of ice that had formed on the roads and walks sufficiently to obscure it and make it treacherous, but not sufficiently to eliminate the danger. It will be strange, indeed, if numerous accidents are not reported before the situation clears.

Mr. and Mrs. J. D. Bell of Highland county, who have been visiting here for a few days, have returned home.

Granville will soon present the appearance of an up-to-date town. The Messrs. John Evans and Clifford Jones are making arrangements to

YOUR STOMACH TROUBLE WILL BE OVER WITH

If your meals don't fit comfortably, or you feel bloated after eating, and you believe it is the food which fills you; if what little you eat lies like a lump of lead on your stomach; if there is difficulty in breathing after eating, eructations of sour, undigested food and acid, heartburn, brash or a belching of gas, you can make up your mind that you need something to stop food fermentation and cure indigestion.

To make every bite of food you eat aid in the nourishment and strength of your body, you must rid your stomach of poisons, excessive acid and stomach gas, which soups your entire system and interferes with digestion and causes so many sufferers of Dyspepsia, Sick-Headache, Biliousness, Constipation, Griping, etc. Your case is no different—you are a stomach sufferer—though you may call it by some other name: your real and only trouble is that which you eat does not digest; but quickly ferments and sours, producing almost any unhealthy condition.

A case of Pape's Diapepsin will cost fifty cents at any Pharmacy here and will convince any stomach sufferer five minutes after taking a single dose that Fermentation and Sour Stomach is causing the misery of indigestion.

No matter if you call your trouble Catarrh of the Stomach, Nervousness, Gastritis, or by any other name—always remember that a certain cure is waiting at any drug store the moment you decide to begin its use.

Pape's Diapepsin will regulate any out-of-order stomach within five minutes and digest promptly, without any fuss or discomfort, all of any kind of food you eat.

establish a first class garage in the village. Work on the interior improvements of the building will be commenced in a few days.

Friends here have received a letter stating that Mrs. J. D. Davidson, who formerly lived here, but who has been making her home in Dallas, Texas, for a number of years, is seriously ill.

The funeral services over the remains of the late Mrs. Sanford, wife of William Sanford, who died at her home on Maple street, on Monday last, were held at the home Thursday afternoon. There was a large congregation of relatives and friends of the deceased in attendance and the interment was made in Maple Grove cemetery.

Mrs. J. C. Malone, who was so seriously burned several weeks ago by a natural gas explosion, is now rapidly recovering from her injuries. Loveless was the attending physician.

"Uncle" John Weston has been seriously ill at his home on Granger street for some days.

Capt. Joseph Scott is reported as being quite ill at his home on Maple street.

Otis King has gone to Mt. Clemens, Mich., to be treated for rheumatism. Mr. King is the field man for the Ohio Fuel Company.

Workmen, who have been engaged in remodeling the rooms of Altahanna Lodge, Knights of Pythias, of this place, say that the improvements will be completed in a few days, when the Granville Knights will have one of the finest lodge rooms of any lodge in the country.

Ernest Loyd of Garrett, Ind., is spending a few days with his parents, Mr. and Mrs. Will Loyd, south of the village.

D. C. Ralshack left yesterday for a short business trip in West Virginia.

W. C. T. U. MEETING

The W. C. T. U. held the regular mothers' meeting in the Sixth Street Seventh Day Adventist church Tuesday afternoon. They gave an excellent program, the leading features being the Bible study by Mrs. Jas. Montgomery of the Newark Sanitarium. A beautiful solo by Mrs. Herman Tower and a recitation by Levaunt Clarke were highly appreciated. Also an original poem by Mrs. W. A. Mitchell, who said she had been in the temperance work for almost 50 years, 35 years a member of the W. C. T. U. of Newark, O.

QUESTIONS CONCERNING SHERMAN LAW

National Civic Federation Makes Public Analysis of 10,000 Answers Received.

New York, Feb. 1.—The National Civic Federation has made public an analysis of 10,000 answers received by it to a series of questions concerning the Sherman law. The analysis of the answers is summed up by the Federation as follows:

"The replies indicate little sentiment in favor of the unconditional repeal of the Sherman law. On the other hand, it is shown that there is practically no desire to abolish large combinations. The public has no desire for government ownership, on one side, or unrestricted and unregulated private or corporate control on the other. They will accept large combinations, adequately regulated."

The questions were sent to editors, political economists, lawyers, publicists, statisticians, manufacturers, merchants, bankers and the officers of commercial, labor and other organizations. As introductory to the questions, it was pointed out that "the Sherman anti-trust act has now been interpreted by the supreme court to mean as to interstate commerce that any combination, in restraint of trade with the purpose of controlling prices and stifling competition, is unlawful."

Going into detail regarding the replies, the Federation says: "Eighty-four per cent of the answers pronounce the Sherman law neither clear nor workable or workable without being clear; but only some 20 per cent declare in favor of its repeal. Of these latter the larger number add that if not repealed, it should be amended, etc. Substantially, the usual phraseology of suggestions for amending the Sherman law is: 'Make it so that business men can understand it' or 'bring it into line with modern business conditions.'"

"Eighty per cent of the replies favor federal license or incorporation for companies engaged in interstate commerce, about one-third of the 80 taking federal license as an alternative. Seventy-five per cent are opposed to holding companies, while of the remainder nearly all want holding companies bound by restrictions that would prevent abuses."

"Government regulation of capitalization is approved by 90 per cent of those to whom that question was submitted, a few of the minority who disapprove suggesting that over-capitalization is not always an evil, but sometimes brings capital into action that would otherwise remain idle."

"Three important advantages claimed for those doing business on a large scale—economies in production, economies in distribution and greater use of by-products—are admitted without dissent by all who answer that query. 'Steadier employment of labor and at better wages,' and 'better protection against industrial accidents' are denied by 85 per cent and more command of international trade and command of the best ability' are doubted by 10 per cent of those answering."

"About 80 per cent favor an Interstate Industrial Commission, some qualifying with the condition that it should be composed of business men only, and two labor representatives proposing that the commission should consist of one member from each state—a sort of interstate business senate."

"A comparatively small proportion is in favor of control of prices by an industrial commission."

"The answers," the Federation continues in its statement, "leave no doubt that the public is thoroughly aroused to the vital importance of the problems dealt with by the Sherman act. The condition of the public mind is appreciated just as much by those controlling great combinations of capital as by the business men and the wage-earners."

"That business conditions are disturbed, nearly every reply admits," the Federation declares. "In the thousands of replies received a large majority assert that business conditions are unsatisfactory. Enforcement of the Sherman law is most frequently mentioned by business men as a disturbing cause, on the ground that they do not understand the law, and that the uncertainty as to its meaning retards enterprise, makes capital hesitate to enter new investments and prompts those in charge of business undertakings to restrict expenditures to the absolute demands of trade."

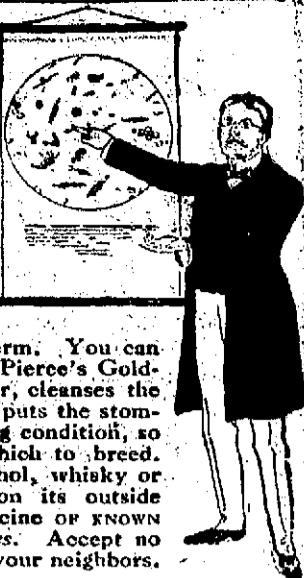

"It is significant that the leaders of organized labor, representing three millions of wage earners are practically unanimous in demanding that the Sherman anti-trust act should be exempt from its operations organizations of labor and organizations of farmers. Many of them, however, argue for its amendment from the standpoint of the business interests. Their experience and training on organization work and their contact with the employers of the country have led them almost universally to the position that too much competition is the death of trade. Samuel Gompers, John Mitchell, James Duncan, Warren S. Stone, W. S. Carter, W. G. Lee, James M. Lynch and A. B. Garretson all reflect this view."

"Some labor organizations took a referendum vote on the questionnaire and their answers were sent in under official seal. "It is interesting to note that the manufacturers, bankers, wholesale and retail merchants and also commercial organizations that took a membership vote are strongly opposed to the repeal of the Sherman act, but just as strongly want it amended along lines that will permit regulation through an interstate industrial commission of some kind."

Afraid of Ghosts

Many people are afraid of ghosts. Few people are afraid of germs. Yet the ghost is a fancy and the germ is a fact. If the germ could be magnified to a size equal to its terror it would appear more terrible than any fire-breathing dragon. Germs can't be avoided. They are in the air we breathe, the water we drink.

The germ can only prosper when the condition of the system gives it free scope to establish itself and develop. When there is a deficiency of vital force, languor, restlessness, a hollow cheek, a hollow eye, when the appetite is poor and the sleep is broken, it is time to guard against the germ. You can fortify the body against all germs by the use of Dr. Pierce's Golden Medical Discovery. It increases the vital power, cleanses the system of clogging impurities, enriches the blood, puts the stomach and organs of digestion and nutrition in working condition, so that the germ finds no weak or tainted spot in which to breed. "Golden Medical Discovery" contains no alcohol, whisky or habit-forming drugs. All its ingredients printed on its outside wrapper. It is not a secret nostrum but a medicine of known composition and with a record of 40 years of cures. Accept no substitute—there is nothing "just as good." Ask your neighbors.

APPENDIX INCISION GREATLY REDUCED

Cheer up! It isn't such an awful experience to have your appendix removed. Just tell the doctor that you want it cut out in the latest perfected style and you won't have to be bedfast many hours. The operation has been made to surgeons of the country that operations for appendicitis which were thought to have been perfected several years ago, when it was found possible to remove the appendix through an inch and a half incision, may now be accomplished through an incision three-fourths of an inch long, cutting the time for recovery by three-fourths, so that the patient may now leave his bed within 24 hours after the operation.

The operation is made by Dr. N. Stone Scott of Cleveland, whose description of this perfected operation has been printed in the Cleveland Journal of Medicine.

The operation even eliminates the necessity of severing muscles of the abdomen in making the three-fourths inch incision, which is made instead by separating the fibers.

The short incision described by Dr. Scott is attracting much professional attention. It is now employed by a number of physicians of the country.

LIFE POSITION WITH B. & O.

While working for the Baltimore & Ohio Railroad company as a brakeman several years ago, George Miles of this city had both legs cut off in the Zanesville yards. At the time he lived in Zanesville. He sued the company for a large amount and by terms of settlement gets \$4,600, and a position as tower man for life, or until he reaches the age when he can receive a pension. Miles has been holding a position as watchman here for some time. The company transferred the suit to the United States court at Columbus, and later the plaintiff's attorneys succeeded in having it transferred to the U. S. court at Newark. Miles was working on top of a cut of cars when he was thrown off.

The trouble with having a future before you is that it is generally so handicapped by your past.

HEALTHY MOTHERS

Women who bear children and remain healthy are those who prepare their systems in advance of baby's coming. Unless the mother aids nature in its pre-natal work the crisis finds her system unequal to the demands made upon it, and she is often left with weakened health or chronic ailments. No remedy is so truly a help to nature as Mother's Friend, and no expectant mother should fail to use it. It relieves the pain and discomfort caused by the strain on the ligaments, makes pliant and elastic those fibres and muscles which nature is expanding, prevents numbness of limbs, and soothes the inflammation of breast glands. The system being thus prepared by Mother's Friend dispels the fear that the crisis may not be safely met. Mother's Friend assures a speedy and complete recovery for the mother, and she is left a healthy woman to enjoy the rearing of her child. Mother's Friend is sold at drug stores. Write for our free book for expectant mothers, which contains much valuable information, and many suggestions of a helpful nature.

Thought It Was Coffee Until Wife Told Him!

ONE day the wife of a prominent Ohio man served Fitch's GRAINS OF HEALTH instead of coffee for dinner.

Her husband was very particular about his coffee. She didn't say anything about the change.

What was her astonishment as the meal passed and her husband didn't discover a difference.

He simply asked for an extra cup and remarked that "the coffee" was unusually good.

For ten months he drank Fitch's GRAINS OF HEALTH before he knew it. And then his wife told him!

Fitch's Grains of Health

The Coffee Substitute With the Coffee Taste

is the only substitute for coffee which smells like coffee—tastes like coffee—has all the coffee satisfaction—without a single bad effect of coffee.

People who dare not touch coffee, can drink all they want of Fitch's GRAINS OF HEALTH. It is good for them. Doctors recommend it.

In Fitch's GRAINS OF HEALTH a special high-grade blend of coffee is so combined with roots, herbs and vegetables

that the caffeine is counteracted. It is a health drink! Try a package today.

Fitch's GRAINS OF HEALTH is sold by all leading grocers. The price is 30 cents the pound package. It is ground. Ready for use. It is just as easy to prepare as coffee—but only half as much Fitch's GRAINS OF HEALTH is required as coffee—a teaspoonful to a cup. Therefore it really costs only half as much as good coffee.

If your grocer cannot supply you, write us, mentioning his name, and we will send you a generous sample package of Fitch's GRAINS OF HEALTH (enough to serve a large family at breakfast) and a booklet telling you all about Fitch's GRAINS OF HEALTH. Enclose 6 cents in stamps for postage.

THOUSANDS OF ROBINS ROOSTING IN HARRISON CO.

Harry B. McConnell, a Harrison county authority on birds and observer for the American Ornithologists' Union, finds that hundreds of thousands of robins are spending this winter in roosts in eastern Ohio.

At one robin roost several miles west of Cadiz, the robins, with a few grackles, began coming from the north and south at 3 o'clock, and from then till sundown they continue coming in such numbers that at times they darken the sky. Farmers in that region say they have never seen anything like it since the days of carrier pigeon migrations.

McConnell says that through the day they may be found feeding in the woods, where there are plenty of dogwood berries, wild grapes and gum berries, and that it is the abundance of wild fruit, this year that kept the birds from migrating farther south.

"It is not the cold so much as the food supply," says McConnell, "that

determines where most species of birds spend the winter."

DON'T KNOW THEY HAVE APPENDICITIS

Many Newark people have chronic appendicitis (which is not very painful) and think it is just bowel or stomach trouble. Some have doctor-ed for years for gas on the stomach, sour stomach or constipation and E. F. Collins, Druggist, 27 Hudson avenue, states if they will try simple buckthorn bark, glycerine, etc., as compounded in Adler-i-ka, the German appendicitis remedy, they will be surprised at the QUICK benefit. A SINGLE DOSE stops these troubles INSTANTLY.

"Our Personal Guarantee to all Skin Sufferers"

Frank D. Hall.

We have been in business in this town for some time, and are looking to build up trade by always advising our patrons right.

So when we tell you that we have found the extreme remedy and that we stand back of it with the manufacturer's iron clad guarantee, backed by ourselves you can depend upon it that we give our advice not in order to sell a few bottles of medicine to skin sufferers, but because we know how it will help our business if we help our patrons.

We keep in stock and sell all the well known skin remedies. But we will say this: If you are suffering from any kind of skin trouble, eczema, psoriasis, rash or tetter, we want you to try a full size bottle of D. D. D. Prescription. And, if it does not do the work, this

bottle will cost you nothing. You alone to judge. Again and again we have seen how a few drops of this simple wash applied to the skin, takes away the itch, in-stantly. And the cures all seem to be permanent.

D. D. D. Prescription made by the D. D. D. Laboratories of Chicago, is composed of thymol, glycerine, oil of wintergreen and other healing, soothing, cooling ingredients. And if you are just crazy with itch, you will feel soothed and cooled, the itch absolutely washed away the moment you applied this D. D. D. We have made fast friends of more than one family by recommending this remedy to a skin sufferer here and there and we want you to try it now on our positive no-pay guarantee.

EXCELLENT SHOWING FOR FIRST MONTH

Mayor Swartz Compiles Report for January and Turns Nearly \$700 Into City Treasury.

Mayor Swartz has just completed the compilation of his first monthly report which will be submitted to the city council next Monday night. The report is one of which the mayor may well feel proud. It is probably the best report filed with the city council in the past four years or more.

The city profited nearly \$700 by the fines and licenses collected during the month and the mayor's check for this amount has been turned over to the city treasurer.

The totals taken from the report follow:

Licenses collected \$265.50
Fines collected (city cases) 290.00
Other collections 68.50
Mayor's Fees 54.00
Officers' Fees 26.50
Fines collected (state cases) 529.00
Mayor's Fees 138.00
Officers' Fees 69.00

The total collections for the month were \$1,440.50. This amount is divided in several funds. A part goes to the county treasury, a part to the city treasury, and certain fees are retained by the mayor for trying cases as provided by law. Certain fees are also paid to officers and witnesses in the various cases.

W. J. Fraser Leaves Y. M. C. A. for Work In Real Estate

Mr. W. J. Fraser, formerly secretary of the local Y. M. C. A. and recently connected with the State Y. M. C. A. force, having charge of Camp Budd near Columbus, severed his connection with the Y. M. C. A. yesterday, after 24 years of service. Mr. Fraser has united himself with a Cleveland firm and will devote his attention to real estate. In writing to a Newark friend he humorously refers to the fact that the firm is Long, Green & Cadwallader, certainly an appropriate name for real estate operations. Mr. Fraser's many Newark friends will wish him abundant success.

Saved Daughter's Life

This Father Refused to Let His Daughter Die.

Here is a story with a moral that many parents might take to heart: "My daughter was very pale, nervous, thin, and suffered with severe pain in her back so that we took her out of school. Her flesh became blue and she could not retain her urine. I spent over \$100 for medicines, but she grew worse. Finally I bought a bottle of Thompson's Barosma and she began to grow better right away. Five bottles of Thompson's Barosma made a complete cure, and today she is a perfectly healthy girl. Thompson's Barosma saved her life, for she was failing so fast that death was not far off." Frank D. Meeder, Pleasantville, Pa.

If you are troubled with backache, sideache, weakness in the back, or any liver or kidney trouble, then it's time for Thompson's Barosma.

Erman & Son sell Thompson's Barosma in two sizes, 50 cents and \$1, and they guarantee it to cure Bright's disease, high colored urine, bed wetting, and all other kidney and liver diseases. It will make anyone vigorous in a few weeks, because it is a great tonic and maker of rich red blood. All druggists.

Colored Wedding at Trinity A. M. E. Church

George W. Garrett and Mrs. Sarah K. Garrett, well known colored people, living a short distance out in the country, in Newark township, came to the city Wednesday, attending a marriage license and wedding ceremony Wednesday afternoon. The ceremony was performed by the Rev. J. D. White, pastor of the Trinity A. M. E. church, at the parsonage on East Church street, in the presence of a few of the friends of the contracting parties. A coincidence in connection with the marriage is that the groom is a first cousin of the woman's first husband, who died some time ago.

THE GROWTH OF NEWARK

SLEDGE HAMMER TALK NO. 4.

BY CHALMERS LOWELL PANCOAST.

The growth of Newark is the business of every progressive business man in this city.

It is profitable for the smallest merchant, as well as the manufacturer, to help Newark hold the position it has gained among progressive cities of this country.

Every town needs to be developed. Not just once in a while, but ALL the time. There must never be any let up in the work.

Newark has grown and is growing. But in order to hold a place in the front ranks this town must become more active.

No town has ever been able to keep on one level by letting well enough alone.

To say Newark is good enough and do nothing means inactivity. The road of inactivity leads down hill always.

The citizens of this town who are ambitious to keep the town pushing forward must get together into one large body strong enough to make a showing along side the organizations of other cities.

The Newark Board of Trade has but one big purpose, and that is to

make Newark more prosperous, prominent and popular in the eyes of the world.

This cannot be done by one or two men, but only through the organized efforts of the representative concerns and individuals of Newark.

The work planned by the Board of Trade when fulfilled will make of Newark a successful city in which the entire world will be interested. But to carry on this bigger work, which means permanency of Newark, the Board of Trade must have a larger membership. This membership will in itself be an advertisement for Newark, as it has been. No man or set of men are interested in the town which does not have some kind of a strong organization which stands for the growth of the city.

Every man who intends to make his home in Newark should be interested in the development of this town. He should at least be interested in having the town in which he lives known as the best town on earth.

It is the duty of every business man to join the Board of Trade and work for the best interests of Newark.

AVOID DECEPTION

Use Newbro's Herpicide Instead.

Wearing artificial hair is a harmless deceit of which many ladies are guilty. These women are all objects for sympathy rather than criticism.

Early neglect in the care of the scalp has caused so much loss of hair that their personal appearance is sadly marred. To correct this defect they resort to artificial hair.

Most ladies would resent any imputation of personal carelessness and neglect. And yet very many women permit their natural hair to become so dull, brittle and lusterless that it looks no better than the artificial.

All this is as unfortunate as it is unnecessary. Hair that is unsightly or thin may usually be attributed to the malevolent activity of the dandruff germ. This vicious germ burrows down into the hair follicle, shortly destroying its life. The hair becomes dead, loose and finally drops out.

There is a remedy sold by all druggists, the intelligent use of which will kill the dandruff germ. It also cleanses the scalp of all accumulations and makes the hair shine with the luster of life and beauty.

That remedy is Newbro's Herpicide, the Original Dandruff Germ Destroyer. This preparation in one dollar size bottles is sold and guaranteed everywhere.

Applications may be obtained at the best barber shops and hair dressing parlors.

The Herpicide Co., Dept. R., Detroit, Mich., will send a nice sample and booklet to any address upon receipt of 10c in postage or silver W. A. Ertman & Son, Special Agents.

progress, he has worked his way upward until today he is known as one of the most successful business men in the state.

Mr. Emerson was born in Liberty township, July 5, 1871, and is a son of James Monroe Emerson, who was born in St. Albans township, Licking county, April 1817.

After leaving school Mr. Emerson learned telegraphy, and afterwards engaged in teaching in Missouri, which he followed for three years. He then took service in the general store of Owen & Hammond, at Alexandria, where he remained for seven years. He then came to Newark and secured a position in the Ambach clothing store, remaining there for three years, when he took service with Charles Washburn, also a

MOTHER OF CHIEF CLERK DALY IS DEAD IN CHICAGO

Word has been received here that Mrs. Daly, mother of Mr. T. J. Daly, chief clerk for James F. Irwin, Superintendent of the Baltimore and Ohio railroad at this point, had died at her home, 4547 Wabash avenue, Chicago about noon on Wednesday. The deceased had been in poor health for some time. Mr. Daly was called to Chicago several days ago on account of the serious condition of his mother. No particulars of her death have as yet been received.

AWAY GOES CATARRH AND BAD COLDS

Ely's Cream Balm Cures Sore Nose and Throat, Catarrhal Headaches and Colds.

No matter how bad your catarrh, how much your head aches, or how miserable you are with a cold in the head, nostrils stopped up, hawking, spitting, bad breath, you always get immediate relief by using Ely's Cream Balm.

Don't let your entire system be poisoned by the deadly catarrh germ which, sooner or later causes complete decay of bone and tissue. The continual dropping of the germ infected discharge down the throat leads to catarrh of the stomach and bowels.

Get a 50 cent bottle of Ely's Cream Balm from your druggist today, and you will get relief a few minutes after using it. Your headache and cold will vanish, and in a short time you will be completely rid of catarrh. Give it to the children for colds and croup. It is perfectly harmless.

RAILWAY AFFAIRS.

Nearly all the railroads of the country are coming to recognize the need of allowing old engineers to have their "pet" engines and the plan will soon become universal. The veterans in the service, after long years of work with their engines become in railroad parlance "married" to them. The officials of all roads are taking this into consideration. In not a few instances the veteran engineers lay off rather than take out a strange engine.

The Pennsylvania railroad having made an enviable record in the reduction of the number of trespassers killed along its line, as a result of the efforts of the officers during the past year and these will be renewed during the coming year. New warning notices will be put up. The officials have issued a circular calling upon all employees to assist in reducing the death toll.

Railroad officials are expecting an announcement soon from the Interstate Commerce Commission fixing a date upon which all Eastern railroads' passenger rates must be adjusted to conform to the long and short haul clause of the interstate law.

May Use Telephones.

According to present plans the Big Four Railroad Company will install telephones all along their lines next summer with which to issue and receive train orders, instead of by telegraph, as for many years in the past. Some of those in authority were in Forest, O., Monday, looking the ground over and perfecting their plans.
